In lieu of the regular monthly meeting – and with an eye to the ongoing Official Community Plan (OCP) & Regional Growth Strategy (RGS) reviews – EVERYONE is invited to a free DVD double feature; two timely and thought provoking films focusing on the rebuilding of community and communities.

While the subsequent focus of SWACA's discussions will be on Minto Avenue, the content of these films will resonate with all of South Wellington's neighbouring communities.

CITY REPAIR: come find out why we and others have put it on the RDN Planning Department's radar.
